

## SEVEN WAYS TO SERVE JOIN A GIVING COMMUNITY

Building Impact delivers high quality volunteer, donation, and networking opportunities to our clients to help them become more civically engaged. Through our Programming, Building Impact offers several convenient ways for participants to serve local communities in-need:

### PRO BONO CONSULTING

We utilize your **expertise** to support organizations throughout the Greater Boston Community. Past clients have included **MIT and TUGG**.

### DONATION DRIVES

Drives and one off donations fill **urgent needs** for food, clothing, supplies, and other items as identified by our partners. Building Impact handles all logistics, including donation delivery.

### BLOOD DRIVES

We partner with local hospitals to help meet their urgent demand for blood. We schedule blood drives at local office and apartment buildings making it easy to fit a donation into your day. Each pint can save up to three lives.

### CORPORATE DAYS OF SERVICE

We will organize days of service for buildings and companies that want to volunteer as a group at a local community organization. You choose the issue area, group size and desired dates and we do the rest. **Team building** through service has never been easier.

### COMMUNITY EVENTS

Building Impact runs a rotating series of volunteer and networking events each month. Any individual or company can sign up online to participate at events.

### VOLUNTEER SOCIALS

Network with others in your building while making an impact. We offer many opportunities to **socialize and volunteer** at the same time.

### IN OFFICE ACTIVITIES

We offer many portable projects that can be brought to your office to complete over a lunch hour. Our staff leads the activity and then delivers the donated items directly to our nonprofit partner
